The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/809,638	<b>Applicant(s)</b> FENG ET AL.	
	<b>Examiner</b> Kahsay Habte	<b>Art Unit</b> 1624	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 1, 7-15, 19, 28-29, 32-38 and 48 are pending in this application.
2. This restriction requirement replaces the previous restriction requirement. In order to do effective search, it is deemed necessary to replace this restriction requirement. There are two Non-Final Rejections in this case. Note that the invention is so broad because of the definition of U and V.

The examiner suggests that applicants delete the substituents on the linker U and also define V. According to the current claim language, V is any amine or V is any nitrogen containing heterocyclic ring.

Note that this case is similar to copending application 10/809,637. The prior art rejections cited in said copending application would apply in this instant case.

The examiner also would like to point out that there would be obviousness rejection under 103(a) issues because of the definition of linker U.

### ***Election/Restrictions***

3. Claims 1, 19, 20 and 38 are generic to a plurality of disclosed patentably distinct species comprising the compounds of the working examples. Related structures and art-recognized equivalents will be grouped together for examination purposes. In the absence of significant prior art, remaining structures will also be grouped therewith.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. Mitchell Brustein on Aug. 20, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
